

CHEM Master®

WRTK Helper Software

INTRODUCING NEW COMPLIANCE SOFTWARE DESIGNED SPECIFICALLY FOR NEW JERSEY SCHOOLS & MUNICIPAL AGENCIES

Expert software allows even inexperienced users to cost-effectively generate 100% accurate NJ Worker RTK Surveys, Universal Labels and Hazard Communication reports on their own, saving hundreds or even thousands of dollars each year, and greatly reducing risk of regulatory fines or inspection.

Major Advantages:

- Easy-to-use interface! Virtually anybody can effortlessly do RTK reporting with confidence.
- Produces both Full & Update NJ DHSS-approved RTK surveys. Even tracks inventory changes for “Update Survey” years.
- Maintains comprehensive chemical inventories in normal units of measure. Minimizes time-consuming reinventorying from year to year. Performs all comparisons of chemical inventories with the NJ Hazard Substance List, and translates all codes automatically.
- Error Check report identifies missing survey elements to ensure complete and accurate surveys.
- Generates RTK Universal Labels for individual or multiple products, including Contents Unknown statements.
- Prints Hazard Communication hazardous inventory reports.
- Comes with a huge chemical database of over 5,300 hazardous chemical substances including the entire NJ Hazardous Substance list with all regulatory reporting hazard codes.
- Multi-facility capable, with many additional compliance features.

CHEM Master® has been a leader in New Jersey Right-To-Know compliance since 1987. It is the only software of its kind available directly to covered institutions. Find out why it is the exclusive software used by many consultants preparing RTK surveys for your facilities already.
